**DETAILED ACTION**

***Response to Amendment***

1. This communication is in response to the special amendment filed on 11/25/2005. All changes to the specification, drawings, and claims have been entered. Accordingly, Claims 17-32 are currently pending in the application.

**EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael J. Ferrazano on 11/30/2005.

The application has been amended as follows:

3. -Claim 25, line 4, the phrase "computer program product for establishing a stable main link" has been changed to --computer readable medium embedded with a computer executable program for establishing a stable main link--.

***Allowable Subject Matter***

4. Claims 17-32 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

5. Claims 17, 21, 25, and 29 are allowable over the prior art of record since the cited references taken individually or in combination fail to particularly disclose **having a training pattern includes a number of training phases wherein a phase 1 represents a shortest run length and wherein a phase 2 are used by the receiver to optimize and equalize and wherein in a phase 3, both a bit lock and a character lock are achieved as long as the link quality is acceptable.** It is noted that the closest prior art, Wolf et al. (US 6914637) shows a method and a system including a transmitter, a receiver, and a serial link, in which encoded data are transmitted from the transmitter to the receiver, more precisely for video and auxiliary data transmission over a serial link. However the stated prior art fails to disclose or render obvious to the above underline limitations as claimed.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nguyen Ngo whose telephone number is (571) 272-8398. The examiner can normally be reached on Monday-Friday 7am - 3:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ricky Ngo can be reached on (571) 272-3139. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
